## About Us

Hexa Line Engineering Consultants, located in Riyadh city, is a dynamic and innovative engineering firm founded in 2021. With a strong commitment to excellence and expertise in various engineering disciplines, Hexa Line offers a comprehensive range of services to clients across different industries. The company derives its name from the six (Hexa) main lines of expertise it specializes in, namely Construction Design and Supervising, Environmental Studies, Water Resource Management, Project Management, Business Process Engineering, and Engineering Arbitration. We are committed in providing a truly remarkable masterpiece for each client.

Since HEXA LINE® Engineering Consultants inception in 2021, our aim was always to use our creativity, versatility and imagination to solve problems and make our design an extraordinary experience on all of our projects we perform.

## OUR MESSAGE

At Hexa Line Engineering Consultants, our message is clear: We are dedicated to transforming challenges into opportunities through innovative and sustainable engineering solutions. We believe in the power of collaboration, excellence, and integrity to deliver exceptional results for our clients. Our team of experts is committed to providing personalized services that not only meet the highest standards of quality but also contribute to the betterment of society and the environment. Together, let's build a future where engineering excellence drives progress and sustainability.

# OUR SERVICES

LINE 1

## Construction Design and Supervising

Hexa Line excels in providing top-notch construction design and supervising services. Whether it's designing architectural plans, structural and electromechanical engineering, or overseeing construction projects, our team of experts ensures high-quality craftsmanship and adherence to project timelines.

LINE 2

## Environmental Studies

HEXA LINE provides comprehensive environmental studies aimed at promoting sustainable practices and addressing environmental challenges. Our team of environmental scientists, engineers, and specialists are equipped with the knowledge and expertise to tackle a wide range of environmental issues.

LINE 3

## Water Resource Management

At Hexa Line, we recognize the importance of sustainable water resource management. Our experienced professionals employ innovative strategies to optimize water usage, address water scarcity challenges, and design efficient water management systems that meet environmental regulations.

LINE 4

## Project Management

HEXA LINE Engineering Consultants offers comprehensive project management services to ensure the successful execution of engineering projects. Our team of experienced project managers provides expertise in planning, organizing, and controlling projects from initiation to completion.

LINE 5

## Process Engineering

We provide comprehensive process engineering services. Our expert team offers tailored solutions to optimize industrial and institutional processes, enhance efficiency, and ensure compliance with regulatory standards. From process design and optimization to equipment selection and troubleshooting, we are committed to delivering innovative and cost-effective solutions.

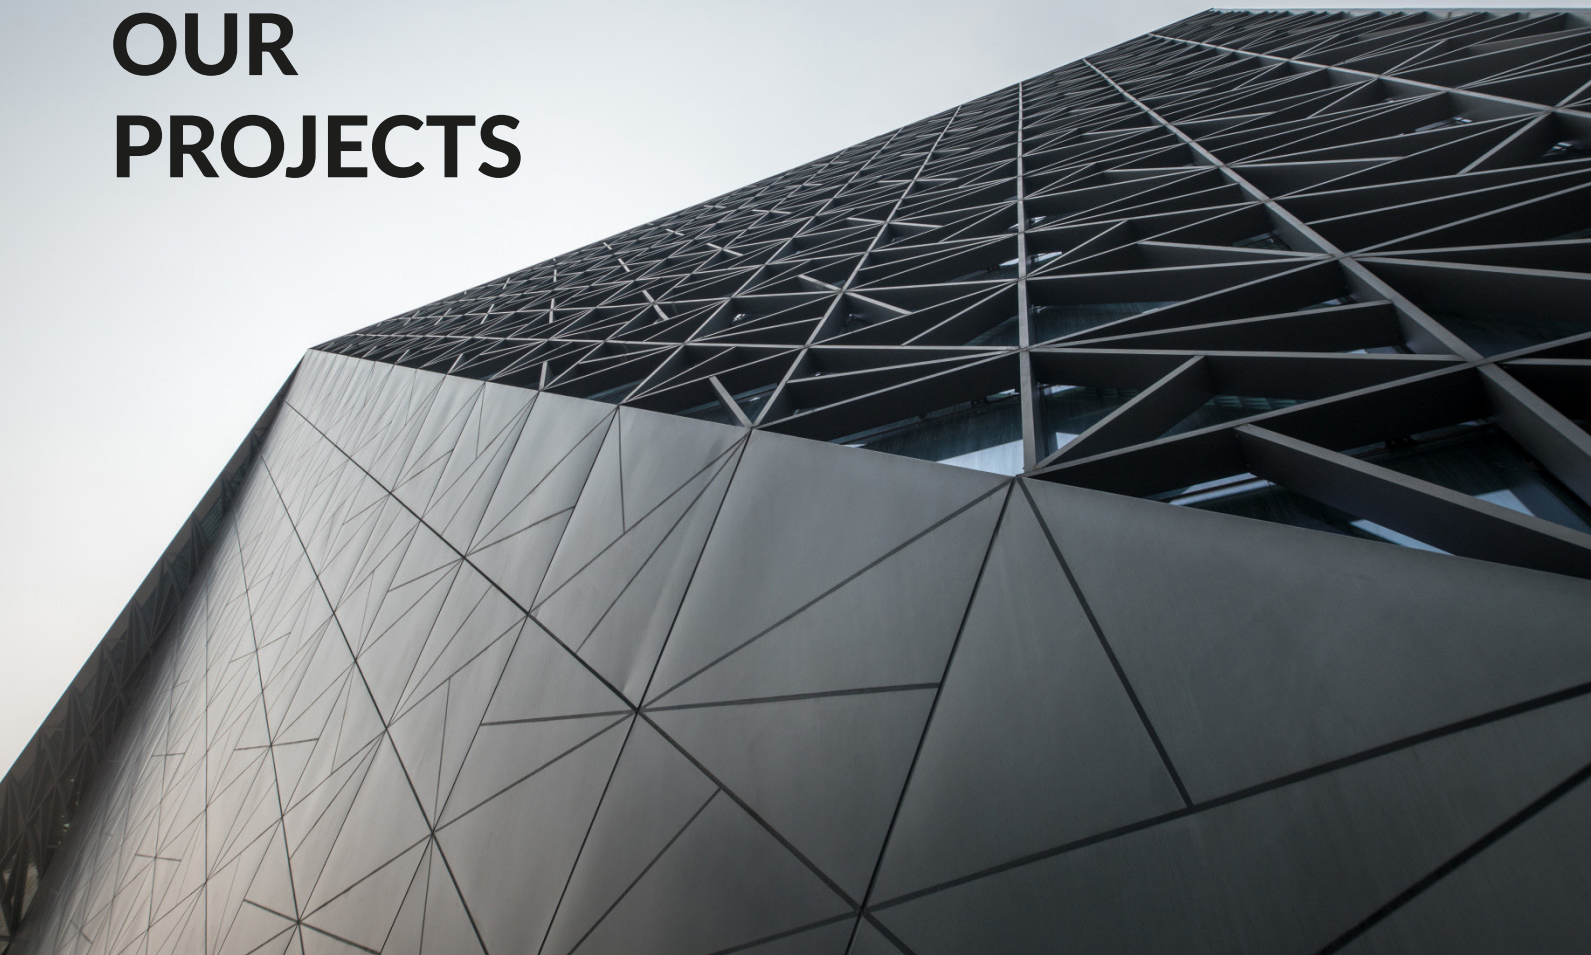

LINE 6

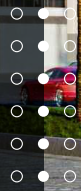

## Engineering Arbitration

HEXA LINE Engineering Consultants offers professional engineering arbitration services to help resolve disputes and conflicts in the engineering industry.
